EDUCATION

2019- 2023

COMSATS UNIVERISTY ISLAMABAD

- Bachelors Of Science In Software Engineering

SKILLS

PROGRAMMING LANGUAGES

- JavaScript
- C/C++
- SQL

TECHNOLOGIES

- ReactJS
- React Native
- NextJS
- NodeJS
- MongoDB
- VueJS
- Git
- WordPress
- Shopify

LANGUAGES

- English (Fluent)
- Arabic (Basics)

PROFILE

As a passionate and innovative Software Engineer, I bring a wealth of expertise in developing cutting-edge mobile applications and dynamic websites. With a keen eye for detail and a commitment to delivering high-quality solutions, I thrive in transforming ideas into seamless, user-centric experiences.

WORK EXPERIENCE

Jury Inc

Full Stack Developer

- Design:** Collaborated with a global team to develop the MVP for Jury, a social app that connects users with new people through their close friends.
- API Integration:** Integrated Firebase for backend services including user authentication, real-time database, and cloud storage.
- Analytics:** Configured Mixpanel for detailed tracking of user behavior, enabling data-driven decisions for improving user engagement and app performance.
- Performance Optimization:** Focused on optimizing app performance across iOS and Android devices, ensuring a smooth and responsive user experience through efficient coding practices and state management.

Blocks Software Solutions

JUNE 2023 - DEC 2023

React Native Developer

- Design:** Collaborated with the development team to design, develop, and maintain software applications or components
- API Integration:** Successfully incorporated multiple RESTful APIs into the company's main application, enhancing functionality and ensuring seamless data interchange
- Redux** to enhance our application's state management, leveraging its robust architecture to streamline data flow and ensure a scalable and maintainable React application.

Let Technologies

OCT 2021 - JUNE 2023

MERN Stack Developer

- Design:** Leveraged React.js for building a dynamic and responsive user interface, ensuring fast page load times and seamless user experience across various devices.
- Documentation:** Assisted in coding, testing, debugging, and documenting software modules.
- Back-end Development using Node.js:** Developed a robust and scalable server-side application using Node.js and optimising the codebase for performance and security.
- Git:** Employed Git as the primary tool for version
- Collaborative Development:** Worked closely with the UX/UI design teams to create an intuitive user interface
